

spinTouch's NDAA Compliance
National Defense Authorization Act

The John S. McCain National Defense Authorization (NDAA) is a United States federal law which specifies the budget, expenditures and policies of the U.S. Department of Defense. For Fiscal Year 2019, the NDAA Section 889, prohibits the U.S. government from procuring video and telecommunication equipment from certain Chinese companies and their subsidiaries.

spinTouch is proudly committed to providing NDAA compliant products and does not employ any components capable of processing software from the banned Chinese companies which include: Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities) or, in the public safety context, telecommunications or surveillance equipment or services produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of those entities). Furthermore, spinTouch does not have OEM, ODM and JDM relationships with the named vendors in the NDAA.

Truly Yours,
